Projects

- **Stop 'N Shop**

<https://github.com/Priyadharshini0101/Stop-N-Shop>

An e-commerce platform for clothing stores that allows users to browse products, add items to a cart, and proceed to checkout for delivery. Includes user authentication, preference saving, and order tracking features for a personalized shopping experience.

- **Netflix-Clone**

<https://github.com/Priyadharshini0101/Netflix-Clone>

A Netflix-inspired streaming platform built using React.js and the TMDB API. Features include user authentication, personalized watchlists, and content filtering by language and genre.

- **U-Farm App**

<https://github.com/Priyadharshini0101/U-Farm>

A mobile-friendly agricultural support app where farmers upload disease affected crop photos and receive expert solutions via text and audio in native languages. Solved real-world problems by providing timely and accurate solutions to farmers, improving crop yield and productivity.
